“Flight thru the Treetops” is a favorite at Earthshine. This is a series of five zip lines where students challenge themselves and do things they never thought possible. I can’t is not heard of here. Students believe in themselves and learn that they can make a difference.

King’s Quest is a scavenger hunt where student seek to find the king’s treasure. They are given a series of clues and they have to work together to sequence the clues and follow directions that take them down and up a hike looking for the treasure. How many jewels they find depends on how well they work together.

The high ropes course can be a challenge for many but sense of accomplishment upon completion is awesome. Students start up the cat walk, leap across the wood bridge, only the giggle box, onto the single line bridge, and back down another cat walk.

Adventure course is where students participate in a series of cooperative games and low rope activities. These activities focus on life-long skills like problem solving, decision making and effective communication with listening as the emphasis.
What do I need to bring?
Wear loose, comfortable clothing that you don’t mind getting dirty. Tennis/running shoes or lightweight hiking shoes/boots are the preferred footwear. Rain gear is necessary. Several layers of clothing are best as temperatures can fluctuate widely in the mountains. The packing list is located on the web page.

Day 1 Monday
11:00am Welcome; Move luggage to rooms; Orientation; Lunch
1:15-3:30 Activity #1
4:00-6:00 Activity #2
6:15pm Dinner
